

How does the chat for experts work

Step 1

Register yourself via the following form:

Note: the link to this form will follow 1 week before the event.

Note 2: At some faculties an account will be created for you, you can then proceed to step 2.

Step 2

You will receive a confirmation email from the Waldo registration system. In this e-mail you will find a link that refers to your personal page

Step 3

On your personal page you will find a blue button with the text 'Go to the online event'. If you click on this button, you will go to the expert chat environment. Please note, this button is only active on the day before the event..

Step 4

The first time you enter the chat environment, you are not yet linked to the virtual information stands. Click on the black 'ADD' button to link yourself to an expertise.

> Select a study program / information stand in which you want to be found by visitors to the platform. You can select multiple stands, make sure you only link THOSE stands that match your expertise.

Dit is de interne chat van het eVenue platform. Je bent momenteel ingelogd als expert en kan vragen van bezoekers beantwoorden.

Virtuele Stands

Nog niet toegevoegd

Toevoegen

Voeg hierboven minimaal één onderwerp toe om over te kunnen chatten.

Voorbeeld chat empty state

Step 5

Once you've added information stands, you'll see a list of visitors to the platform on the left who have started a chat about YOUR topic.

- > The visitor who most recently sent you a message is at the top of the list, including a notification dot.
- > The number in the red notification dot indicates the number of messages sent.
- > Click on a visitor's name in the left list to start a chat with that person.

Virtuele Stands

Helpdesk

Toevoegen

The screenshot shows the 'Virtuele Stands' chat interface. On the left, there is a list of visitors: Celine de Vries (Filosofie), marc liere (Helpdesk), and marc liere (Psychologie). The main chat area shows a conversation with Celine de Vries. The messages are: Celine de Vries: 'Hallo ik heb een vraag!' (10:09), Marc liere: 'hoi celine, hoe is het?' (10:10), and Marc liere: 'wat is je vraag dan?' (10:12). At the bottom, there is a text input field with the placeholder 'Type een bericht' and a character count '0 / 500'.

Voorbeeld actief chatscherm

Please note:

- Chats work best in Google Chrome browser
- DO NOT open the chat in multiple screens at the same time, make sure you have your chat screen open on a maximum of 1 device and in 1 browser.
- You cannot start a chat with experts, but you will see other experts within the same topic 'typing' with a chat that you may also have opened.
- If you want to share URLs in your chat message, always type 'https://' before the URL.
Not: www.nu.nl
But for example: <https://www.nu.nl>
Only this way the link will be directly clickable for the visitor
- If you have problems with the chat, please contact your contact person.
